### PROFILE

A fiercely driven and enthusiastic Fashion Graduate from Plymouth College of Art with an Art and Design background. I strive to create fresh and exciting pieces that push boundaries, consistently drawing from a wide and diverse range of influences that represent my unique view on the world around me. I have had the opportunity to work within large creative and corporate environments equipping me with communication and presentation skills standard to any working industry. Throughout my studies I have also honed my skills for design, manual and digital pattern cutting and garment construction, whilst advancing my hand drawing skills as well. I aspire to progress in a career that allows me to continue designing and illustrating in a fast paced and professional fashion environment, and I would be willing to relocate to achieve this. My end goal is to assume a role in which I am responsible for making key creative decisions regarding the design of garments in a successful fashion house that is internationally facing.
