

IGNITE 2021

FESTIVAL OF CREATIVITY

Are you a community or arts organisation planning virtual or blended events this Summer?

IGNITE Festival of Creativity is running 26 May - 9 July delivering a unique spin on the traditional arts degree show through online technology working in tandem with physical community engagement.

Under the theme 'how does creativity feed into the lives of everyone?' we also want to showcase the great work going on around the city.

Through partnering with us you'll receive our joint branding pack and benefit from promotion via our website and social media channels. You'll reach a wide network of students and local businesses, have the potential to collaborate on future projects and create connections with a local hub of graduate talent.

About IGNITE

NI

Launched in July 2020, University of Plymouth and Plymouth College of Art created a unique spin on the traditional arts degree show via a spectacular website connecting graduates, industry and the public to spark employment, community engagement and new economy projects across Plymouth and beyond.

More than 400 final year students completed a profile and submitted highlights of their work, and businesses were quick to react leading to graduates from both universities being commissioned and employed.

In 2021, Plymouth's two leading institutions will deliver yet another unique spin on the traditional arts degree show and the IGNITE Festival of Creativity with online technology and physical community engagement working in tandem.

IG

Led by University of Plymouth, Plymouth College of Art and Plymouth City Council as part of the iMayflower project, the IGNITE website and IGNITE Festival of Creativity is supported with funding from the Cultural Development Fund through Arts Council England and DCMS.
